### DETAILED ACTION

1. This Action is written in responding to the Amendment received on August 17<sup>th</sup> of 2004.
2. Claims 1-7, and 9-23 are pending. Claim 8 is canceled.
3. Examiner considers the Amendments to the Abstract and the Specification.

### ***Claim Rejections - 35 USC § 103***

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. **Claims 1-4, 6, 9-12, 14-18, 20, and 23 are rejected under 35 U.S.C. 103(a) as being unpatentable over GREGG et al, US Publication No 2002/0002688A1, hereinafter "Gregg".**

6. As per claims 1-4, 6, 9-12, 14-18, and 20, the previous rejection dated 05/24/2004 is maintained.

7. As per claim 23, Gregg teaches "An access right managing system as claimed in claim 4, wherein the portable terminal further comprises: display means for displaying

the access right continuation notice for a user of the portable terminal, and input means for accepting the instruction information entered by way of the user" in (Para 0106, 0098).

**8. Claims 5, 7, 13, 19, and 21-22 are rejected under 35 U.S.C. 103(a) as being unpatentable over GREGG in view of Saylor et al, US Patent No 6707889, hereinafter "Saylor".**

9. As per claims 5, 7, 13, 19, and 21-22, the previous rejection dated 05/24/2004 dated 05/24/2004 is maintained.

***Response to Applicant's argument***

10. In responding to the applicant's remark of claim 1, the access history information is taught in Para 0078. The access history information does include the time of the first access and the predetermined effective period. The Para 0098, 0100-101, and 0123 further explain in detail of the access history information. The predetermined effective period is clearly described in Para 0098, which is the preset time limit.

11. In regard to the argument that the access history information storing means is part of the claimed gateway, it would be obvious that it can be on either the same server or a different server.

***Conclusion***

12. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
